DETAILED ACTION

Applicants arguments filed on 24th April 2007 with respect to claims 1-16 have been fully considered and are persuasive. Accordingly, the examiner has withdrawn the rejection of record.

Reasons Allowance

1. The following is the examiner's statement of reasons for allowance:

Applicant's substituted paracyclophane derivatives in asymmetric catalysis is novel and not obvious over the closest prior art (US 5,874,629 and J. Am. Chem. Soc. 2002, 124, 5183-5196). The closest prior art (US 5,874,629) fails to disclose or teach substitutions on the dibromoparacyclophane to make a substituted paracyclophane with various functional groups as listed in the instant claims. The other closest prior art (J. Am. Chem. Soc. 2002, 124, 5183-5196), fails to teach or fairly suggest a compound, viz., a substituted pseudo-ortho dibromoparacyclophane of formula (III) as listed in the claim 9. All claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
